

### The Passing Parade

By HAROLD S. MAY

• The time has arrived when a full discussion of Daylight Saving Time advantages and disadvantages will fill the newspapers. We have always thought it a foolish thing to go on Daylight Saving Time unless the entire nation adopted the schedule. However, when the hot days arrive, we'd like to go along with the same action of numerous plants and industries that move up their starting and quitting time a full hour. Wouldn't it be nice if our retail business houses would join with industry in setting a 7:30 a.m. opening and a 4:30 p.m. closing for the months of June, July and August. There would be no confusion with such a schedule.

• The best salesman in the world is the guy who can make his wife sympathize with the girl who lost her compact in his car.

• We wonder if you, too, have reached that stage in life when asked: "How do you feel?" you hesitate to tell the truth and, instead, reply: "I'm fine." If this be true, then go along with us as we tell you:

There's nothing whatever the matter with me,

I'm just as healthy as I can be. I have arthritis in both my knees And when I talk, I talk with a wheeze;

My pulse is weak and my blood is thin, But I'M AWFULLY WELL for the shape I'm in!

I think that my liver is out of whack, And a terrible pain is in my back, My hearing's poor, and my sight is dim, Most everything seems to be out of trim.

My doctor says my days are few For every week there is something new;

The way I stagger sure is a crime, I'm likely to drop at any time, I jump like mad at the fall of a pin, But I'M AWFULLY WELL for the shape I'm in!

My teeth will eventually have to come out And my diet — I hate to think about.

I'm overweight and I can't get thin, My appetite is such that it's sure to win.

But I'M AWFULLY WELL for the shape I'm in!

Arch supports I have for my feet, Or I wouldn't be able to go in the street.

Sleep is denied me, night after night And every morning I'm a sight.

My memory's failing, and my head's in a swim, I'm practically living on aspirin, But I'M AWFULLY WELL for the shape I'm in!

The moral is, as this tale I unfold, That for you and me, we are — wing old;

It's better to say "I'M FINE," with a grin.

Than to let them know the SHAPE I'M IN!

Jackson, native of Florence, at the ripe old age of 95, which he will reach on May 10, is still going strong on the golf course even though he had the misfortune a short time ago of being struck in the eye by a golf ball. The nation's oldest living admiral has just given up riding his bicycle, which he says kept him in such physical shape that he still can wear his naval cadet uniform. Admiral Jackson, an avid golfer when he made his home here shortly after his retirement, makes his home in Coronado, Calif.

• A reckless driver is one who passes on the highway in spite of everything you can do.

• Getting a bit bored with listening to a braggart boast of how he could bend a horseshoe with his bare hands, a man got up from his chair and started walking away mumbbling: "That guy thinks he's good but my wife can tie up 10 miles of telephone wire with her chin."

HEY! SOMETHING'S MISSING—Fire fighters stand by in frustration as a home blazes away in Queens, N.Y. Heavy snow stopped fire engines two blocks away, and hoses had to be carried to scene. Another house also was destroyed.

### Total Cost Would Be \$5.7 Billion

## Huge Aid To Education Fund Proposed By JFK

In a special message to Congress on Monday President John F. Kennedy proposed a bold new program for education that would total some \$5.7 billion. He said the measure was intended to "set a new standard of excellence in education available to all who are willing and able to pursue it."

He outlined a three year program of grants to states for use in construction of classrooms and raising teachers' pay. For the first year it would provide an average of \$19.75 for each child in average daily attendance in public elementary and secondary schools and increasing to \$24.22 by the third year. This would take \$2.3 billion of the \$5.7 billion allocated to the program.

Then there would be a five-year program of college scholarships, averaging \$700 each with an additional \$350 to the colleges and universities for each scholarship winner. Broken down, there would be 25,000 such scholarships the first year, 37,500 the second year and 50,000 scholarships for each of the remaining three years.

In addition there would be a continuation of the 10-year-old program of long-term, low-interest loans made to colleges for dormitory construction and a rate of \$250 million a year the five years; total \$1.3 billion.

Last would be the establishment of a similar loan program for building college classrooms, laboratories, libraries and other needed facilities, at the rate of \$300 million a year for the five years; total \$1.5 billion.

No funds were recommended for church school construction or teachers' salaries in connection with these; however no distinction was made with reference to institutions of higher learning regarding scholarships.

Senate Minority leader Everett M. Dirksen (R-Ill.) said he would offer a Republican substitute for Mr. Kennedy's proposal. Dirksen's proposal is said to be a four-year, \$1,000,000,000 proposal. In his program federal aid would be matched by states and mostly limited to construction of classrooms.

House Speaker Sam Rayburn is opposed to that part of the Kennedy measure that would provide federal money for teachers' salaries. Kennedy called his measure "a modest program with ambitious goals."

### Louis Rosenbaum Named President Of United Fund

#### Florence Businessman Is Successor To Longshore New Directors Elected

Louis Rosenbaum, prominent Florence businessman, was elected president of the Lauderdale County United Fund, Thursday, by the organization's directors. Mr. Rosenbaum succeeds Judge Herman K. Longshore.

Kenneth C. Darby and Morris Klibanoff, both of Florence, and Ozell Thrasher of Rogersville were elected members of the board while vice-presidents, Fred Moore, L. S. Doster, Charles Green, Julian Bailey and treasurer, Fred Long were re-elected to the executive committee.

Mr. Rosenbaum, who recently sold his theater interests, said he was looking forward to joining the other volunteer United Fund workers in their fund raising and budgeting work during 1961. "Our United Fund deserves our best," he stated. "The 13 separate organizations which combine their fund-raising campaigns in this one big one are vital to our area. From many years of experience I know the United Fund way of giving gives all of us more for our money, both by greatly reducing fund raising and administrative costs and by careful overall budgeting studies," Mr. Rosenbaum continued.

The review of the 1960-61 United Fund campaign so far is \$18,910 short of its \$122,466 goal, however, the campaign report reflected increased giving by members of organized labor; organizations or companies showing the largest increases were TVA, Reynolds Metals Company Alloys and Reduction plants which included contributions by both union and non-union employees. Diamond Alkali and Union Carbide reported larger average contributions than last year. It is hoped that the almost \$19,000 gap between the goal and contributions will be partially eased by potential contributors who have not been heard from. The Educational and Residential divisions of the campaign reached their goals.

This was the first year that both Lauderdale and Colbert United Funds have shared the same executive director, R. F. McBride, however, separate offices were maintained in the two counties. Employee contributions in major area industries were shared by both counties on the basis of the employees' home towns. As a result of the joint function, current figures show a saving of \$3,597.45 in campaign and administrative costs for both United Funds.

### J. D. McPeters Is Accident Victim

#### Car Dives Into River Below O'Neal Harbor; Passenger Escapes

James Davis McPeters, 56, 609 North Poplar, Florence, drowned Sunday afternoon when the car which he was driving and had parked atop a six foot embankment alongside the Tennessee River just below O'Neal Boat Harbor, suddenly lurched forward into the water. After the car had been pulled from the water by a wrecker, Mr. McPeters was found under the steering wheel.

J. W. Kelley, 33, of Florence, a passenger in the car, narrowly escaped the same fate as he managed to climb through a window of the car and swim to shore with the help of two other persons.

Detective Captain Jim Carter, Chief of Police Noah Danley, and Coroner Stanley Elkins along with a number of other officers investigated. A witness of the accident stated he had seen the two men sitting inside the car talking just prior to the accident and reported he heard a "racket" seconds later, which was the car going into the river. Carter said it was possible that the driver got the car in the wrong gear, causing it to go down the sharp grade into the water, however, Coroner Elkins had not ruled in the case pending completion of the investigation by Florence detectives.

Funeral services for McPeters were held Tuesday at 10 a.m. at Morrison-Elkins chapel with the Rev. J. H. Robison of St. James Methodist Church officiating. Burial followed in Florence cemetery.

He is survived by a brother, Earl O. McPeters of Florence; two nieces, Mrs. T. W. Broadfoot, Jr., Florence and Mrs. Clifford Lewis, Annadale, Virginia.

### Contract Awarded For Post Office At Lexington

Mrs. Mary D. Putnam, Lexington postmaster, was advised Saturday a contract has been awarded for a new Post Office at Lexington; the successful bidder was H. L. Austin and wife of Erin, Tennessee. The lease will run for ten years with renewal options up to ten years.

The building which will be on State Highway 101, will have 1,305 square feet of interior space, an outside loading platform, paved space for parking and truck maneuvering, modern lighting and equipment and a low, open patron-service counter.

Ground breaking and construction is expected to begin in the immediate future with work to be completed about August 17.

Orville L. Freeman, Secretary of Agriculture, says the 1961 cotton crop will be supported at a base rate of 33.04 cents a pound, compared with last year's base rate of 32.42 cents providing an increase of about three dollars a bale for most growers.

A subsidy of 8.5 cents a pound will be offered by the department on cotton sold abroad which is necessary to keep United States cotton competitive with other cotton in foreign markets; the current export subsidy is six cents a pound, but exporters have been getting the bulk of their cotton from the government at prices running from two to three cents a pound below the basic support rate and also that much below prices the government itself paid for cotton it bought from growers under the 1960 support program.

Freeman said the export subsidy announced by him is in fact virtually the same as that in effect for last year's cotton. The base rate of 33.04 cents applies to middling one-inch cotton at average storage location; under last year's program, this cotton with the department's control program was .62 cents lower.

Growers could overplant their allotments by 40 per cent under last year's program which carried a provision that growers could do so, but they received a basic support of only 26.63 cents, a provision which will not apply to this year.

The support rate introduced by Freeman amounts to 82 per cent of parity, a standard for measuring farm prices declared by law to be fair to farmers in relation to prices charged them.

HELL PAY—If someone comes up with a job for him, unemployed machine operator Thomas Whitehurst will pay a reward. Father of four, Whitehurst has not had steady work for three years. He lives in Mt. Clemens, Mich.

The Alabama Education Association meeting in Montgomery voted Saturday to push for a 10 per cent raise for teachers in the next Legislature. The proposed program also calls for increases of more than \$50 million above school appropriations for the year.

While no provisions were made for raising the money it was certain to mean additional taxes and a revision of present taxes. The recommendations of the AEA legislative committee were approved at a morning session by the 1961 Assembly of Delegates. AEA President Mrs. Margaret Vines headed the committee that outlined the huge increases in school expenditures.

The Legislature, meeting in May, will make the annual appropriations for schools.

In its recommendations the committee included the Minimum Program Fund, which supports elementary and secondary schools in Alabama. It was \$146,539,000 for fiscal 1961-62.

This compares with the \$105,500,000 appropriation for this year, however the amount actually received will be about \$95,500 because of the 9.4 proration.

The AEA committee in addition recommended some \$50 million in capital outlay expenditures which it said would provide needed facilities not financed by the \$100,000,000 bond issue. It further stated its proposals were based on needs not recognized by the legislative appropriations of 1959, this plus a ten per cent increase in practically all levels of education. It was pointed out this would prevent teacher overload and provide additional teacher units where needed.

The AEA committee recommended nearly \$3 million additional for the Minimum Fund Program bringing the total to \$149,379,000. It also proposed the state change its fiscal year to coincide with the school year to eliminate confusion and reduce bookkeeping expense. The state fiscal year begins on Oct. 1 and the school year on July 1.

UN Hand Strengthened

A resolution authorizing the United Nations to use force if necessary to keep peace in the Congo was approved by the UN Security Council Tuesday in the face of a Soviet threat to use the powers of veto.

Perhaps this action will set a precedent since more than once the UN has not been implemented with enough power to do a respectable job of policing.

If the UN cannot police wayward and belligerent nations which can well be the focal point for real trouble as in the Congo, then why have a United Nations.

Communist plotting and counter-plotting has set the world afire. There is scarcely a nation where communist infiltration has not been a disturbing or disrupting influence.

Nation after nation has fallen into the communist camp with practically no bloodshed, communist blood that is. The free nations no longer surround the communist nations.

President Kennedy's approach to this nation's foreign problems is heartening and his stand against the blustering and bluffing of the Soviet leaders is firm and unafraid.

The influence of the United States is enormous anywhere in the world even where the communists have carried on their hate campaigns.

Crime Prevention Week

The Exchange Clubs of the land are sponsoring National Crime Prevention Week at this time and every American should give serious thought to how vitally important it is to do something about the nation's multi-billion dollar crime bill.

Naturally one week is not going to accomplish much and no one expects it to. Crime prevention is a full time job and no amount of writing about it or speech-making is going to avail unless the public is aroused.

We should combat crime both individually and collectively. We must believe that crime is harmful to the community, state and nation.

It is time to take stock of ourselves and see what can be done. Tighter laws and stiffer sentences are only a part of the war against crime.

As the sun dispels the darkness so does good dispel evil. The Exchange Clubs' effort is a worthy one and deserves full support.

Washington Believed In Freedom

George Washington whose birthday we celebrated Wednesday was not only great but unique in a number of ways. Known as the "father of his country," he was also possibly its richest man.

George Washington had two outstanding virtues among many others. What he may have lacked as a military strategist he made up for in indomitable courage and persistence.

American independence was not won in any one battle or succession of battles but on the day Washington was born in 1732 at Wakefield in Virginia.

Perhaps more than any other, we have Washington to thank for our independence and our freedom.

Miss Darnall, Mr. Champion To Say Vows In April Event

Mr. and Mrs. Theodore Edward Gerber, 444 North Wood Avenue, Florence, have announced the forthcoming marriage of her daughter, Elizabeth Glenn Darnall, and Jasper Knight Champion of Montgomery, son of Mr. and Mrs. Stewart McWhorter Champion of Hayneville.

Daughter of the late Marcy Bradshaw Darnall, Jr., the bride-elect is the granddaughter of John Overton Dabney of Florence and the late Edna Perry Dabney, and of the late Mr. and Mrs. Marcy Bradshaw Darnall. She attended preparatory school at Sullins Academy in Bristol, Virginia, and spent her freshman college year at the University of Alabama, transferring to Lindenwood College in St. Charles, Missouri, where she was graduated last June with a Bachelor of Arts degree. At the latter institution, she was a member of Alpha Psi Omega, honorary dramatics fraternity, president of the League of Women Voters, and senior representative to the student council. She is a member of the Tri-Cities Girls Cotillion Club.

Mr. Champion, grandson of the late Mr. and Mrs. Jasper Knight and of Mrs. William Perry Champion and the late Mr. Champion, attended Marion Military Institute and was graduated from the School of Engineering at the University of Alabama in 1955. He is a member of Kappa Alpha social fraternity and, in business, is affiliated with the engineering department of Burford-Toothaker Company in Montgomery.

The wedding is planned for April eighth.

Robert Waller read the vows at half past seven o'clock following

MISS ELIZABETH GLENN DARNALL

a program of nuptial music by Mrs. James Morris, Mrs. Charles Burns, and Glenn Rikard.

Daughter of Mr. and Mrs. John Robert Womble, the bride was given in marriage by her father. Her ballerina length gown of Chantilly lace and bridal peau de soie was distinguished by a low, rounding neckline and three quarter-length sleeves in the lace bodice, and continuance of the lace fashioning the skirt's front panel. Also of lace was the bandeau from which her shoulder length veil cascaded, and with her bride's Bible she carried a white orchid showered with lilies of the valley and white satin streamers.

Mrs. Wayne Graves was her sister's honor attendant. Her white velvet sheath with matching overskirt was designed with cap sleeves and rounded neckline dipping to form a V at the back. A spray of velvet leaves held her tiny veil and she carried a cascade bouquet of carnations intermingled with Valentine-red hearts. Bridesmaids, identically dressed in red, were Miss Marilyn Chandler, sister of the bridegroom, and Miss Libby Pogue. Deborah Regan, wearing red velvet with full overskirt of white organdie, served as flower girl and Michael Womble, nephew of the bride, as ringbearer. Candlelighters, also nephews, were Richard Tranum, Jr., and James Womble, Jr.

Son of Mr. and Mrs. David Chandler of Rogersville, the bridegroom asked his brother, Ronald Chandler, to serve him as best man and groomsmen included another brother, Daniel Chandler, and James Womble, brother of the bride.

Mrs. Womble, mother of the bride, was attired in a gown of beige lace, with which she wore brown accessories and a corsage of white carnations; Mrs. Chandler chose for her son's wedding a model of blue lace, matching accessories and she, too, wore white

Contemporary Study Club Hears Program On Caruso

A full membership was present on Monday afternoon when Mrs. Staats Burnet was hostess to a meeting of Contemporary Study Club, welcoming guests at her home on Paxton Drive at 3:15 o'clock.

Mrs. Julius Fleming, president was in charge of a brief business period before Mrs. James Fall, program chairman, gave a delightful discourse on "The Great Caruso."

Using Dorothy Caruso's book about her husband's life, and another entitled "Caruso, His Life and Pictures," by Francis Robinson, Mrs. Fall read excerpts about the famous tenor including the incident of his debut with the Metropolitan Opera Company in 1903, followed with only one exception by a succession of opening night performances which continued until his death in 1921. Anecdotes collected over a number of years and from various sources, and a musical background provided by old Caruso records were other interesting program features.

Glenn Iris Gardeners Given Hints On Shrubs

## THE SPILLWAY

Thank heaven for people who come-and-go . . . Without them, this column would seem pretty slow!

AND THIS WEEK'S "GOING" is still toward the sun's warmer rays . . . Emory and Lois Morris have headed toward Florida, as have Bob and Eloise Tomlinson . . . and Cloyd and Olga Beasley—whose departure was NOT without its complications . . . seems that in the excitement of "getting off," Olga left her wardrobe hanging in her Spanish Oak Court home, rather than on the hook in the back of the car. A quick call to her good neighbor, Mary Floyd, cleared it all up, and the clothes were packed and on the way pronto.

NOR WAS THE DEPARTURE of Bob and Eloise without its flurries, since they scheduled, along with the activities of preparing for their trip, a gala dinner party honoring GENERAL BILL (and Annie) Calhoun. Along with Bob and Eloise, this party was hosted by "Rut" and Sara Cunningham—with "Rut" acting also as Emcee (poetry and all). And the real hit of this gay evening was the arrival (from Nashville) of Billy and Betty Harwell—former Florentines, and still claimed by all of us who knew them.

THE FORTUNATES AMONG US this past week end were those who were in Birmingham to witness The Music Man, starring Forrest Tucker. Enthusiastic comments from all who were there make more of us wish we could've been there too. Just ask any of those present—the Bert Darbys with Johnny—Dot Smith with son Richard—Mac and Mildred Smith—Glenn and Reba Blouin.

TRAVELING HEADED THIS WAY—many have enjoyed seeing the beautiful-as-ever Elizabeth Lee, who's been here from her home in Washington to help her mother, Elizabeth Gregory, speed along her recovery from recent surgery . . . And t'was nice seeing Carol Patton here for the week end from the University of Mississippi, where she is a Freshman—and excited with the news that she's just pledged Kappa Delta sorority.

PROUD OF THE STATEWIDE RECOGNITION Florence State College has just received we are . . . for its contributions to the Blood Program through the local Red Cross Chapter . . . and especially proud of these young college students who're taking their citizenship responsibilities so seriously—so-young.

WE'VE JUST LEARNED that our beloved Pearl Powers Moody is to be signally honored by the naming of a new Home Economics building at Madison College, Harrisburg, Va., MOODY HALL in recognition of her 32 years of outstanding service as a member of the faculty . . . Moody Hall will be ready for occupancy in late 1961 and to both Madison College and the honoree we extend our cordial congratulations . . . which should also be extended to sisters Louie and Elizabeth for having such a distinguished member of the family.

TALENT RECOGNIZED . . . Let's all congratulate Leona Garth, a senior at Coffee High School, who recently won the state vocal contest for high school seniors . . . Understand she will return to

**TOUGH BEEF TENDERIZED BY HYPO!**

Beef as tender as the costliest, aged prime ribs may soon be available for you to serve as a result of a new, on-the-hoof tenderizing process.

This internal process — papaya plant enzyme injected into the steer's circulatory system before slaughter — will greatly improve the present external method of dipping beef cuts into a tenderizing solution. The new method will not begin breaking down cells (tenderizing) until the heat of cooking starts. Then lowly chuck roasts can be grilled or broiled as only choice cuts can be cooked now.

The years may bring changes in food production and processing, but BEER and ALE will continue as favorites in many American homes. These wholesome beverages always have the knack of going well with other foods!

## Come to Church for Services

"A FAMILY THAT WORSHIPS TOGETHER — STAYS TOGETHER"

### THE THEORY OF DOUBLE PROTECTION

Somehow we don't think of the baby's bassinette as a "scientific development." But it is. It has been designed to protect a child from exterior hazards—and from himself.

Religion isn't what we would call "scientific." But it, too, embraces this theory of double protection.

The man or woman who worships God faithfully is prepared for the unexpected crises in life. And his mature conscience is ready to cope with temptation.

This isn't to say that nothing ever goes wrong for the ardent church-goer. But he meets each outward or inward challenge with adequate spiritual resources.

There are impelling reasons why you need the Church and its undergirding strength. And for every one that is evident today, there are others you'll confront tomorrow.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

This is the time of the year when homemakers get most discouraged with home washing. During the winter, more than any other time of the year, clothes get more of a sooty-gray. This is due to many things such as more fires are needed to heat the homes and less clear, sunny days.

To get that wanted whiter wash, delay adding liquid bleach to the water until part way through the wash cycle. The reason for this is because most leading detergents contain brighteners that lose their effectiveness when a liquid chlorine bleach is added before the brightener has had time to work itself into the fabric.

Many manufacturers of automatic washers are now outfitting their machines with timed bleach injectors. The homemaker fills the

injector at the start of the cycle. At the proper time, the liquid bleach is released into the wash water.

Of course, you can add the bleach manually, but you must measure and dilute it carefully or it will damage your clothes. Never use it on silk, wools or acetates.

If instead of liquid chlorine bleach, you are using a mild perborate bleach—look for the word "Perborate" on the box—you can add it at the same time as the detergent. It has its own built-in brightener. The mild bleach maintains brightness, but to remove soil, spots and stains, liquid chlorine is the answer. Whether bleach is mild or strong, it works best in very hot water.

Detergent brighteners build up in clothes so they get whiter each time you wash, even though you don't bleach every time.

## Central Chapter Takes Shopwork

### Mechanics Of Tractor Part Of Training For Busy FFA Members

The Central FFA chapter has been busy during the past six weeks developing shopwork skill and practice. Many of the boys are improving in arc welding while others are making and finishing furniture and learning the technique of repairing automobiles and tractors. The boys have a more thorough understanding of the mechanics of the tractor due to their attendance at the John Deere Tractor Show.

The FFA officers for Central are Douglas McClure, President; Ronnie Paulk, Vice President; Harry Austin, Secretary; Ben McGinn, Treasurer; Harold Fulmer, Reporter; Charles Wright, Sentinel; and N. G. Spillius, Advisor.

Douglas McClure and Carl Creasy recently won the chapter prizes for their corn.

In the near future, the boys intend to order their FFA jackets and from Huntsville will order lumber for various items of furniture which they plan to build in future shop classes.

## Plants Thrive On Balanced Diet

By JOHN HENDERSON

Plants have appetites just as you and farm animals do. But, unfortunately, plants can't vary their available foods at will to match their appetites for a balanced diet.

This is where you, as an alert farmer, can enter the picture. You don't have to wait until your crops show ring-streaked, spotted signs and blotchy discoloration. You can get help beforehand by having a soil test made to detect nutrient deficiencies even before you plant your crops. A soil test will help you to determine how much and what kind of each fertilizer element you should add to produce a heavy, healthy yield of any crop.

Many crops in Lauderdale County are forced into "overeating" certain elements but are on a starvation diet for other nutrients

needed to furnish them health and steady growth. A major soil fertility problem in Lauderdale County is an unbalanced supply of plant nutrients. Eating only one food source each day is unhealthy for people—similarly no one morsel of a certain fertilizer element can keep plants well-fed.

Every farmer in Lauderdale County should ask himself two questions: (1) Are you sure you know the fertility condition of the soils on your farm? (2) Do you know what kind and amount of fertilizer to use on your crops for top yields and top profits?

If you could answer these questions, you are on the road to more profitable farming. But if you can't, you may obtain the right answers by having a soil test made right away on each field of your farm.

Supplies and instructions for taking a soil test can be obtained at the County Agent's Office in the Co-op building at Florence. Farmers who will bring their soil samples to the County Agent's Office by February 20th can have them sent to the laboratory on a truck. This will save the trouble and expense of mailing them. So let's take our soil samples now and make higher yields next fall.

Percent Alabama's 1960 Allotment Was Of Total National Allotment .....	6.0%

### Nearly A Million Alabama Acres Lost In Ten Years!

Of This Million Acres Lost 700,000 Acres Were Taken Out of Production. But 237,000 Acres Were Reassigned To Other States Because Alabama Underplanted and For Other Reasons.

### Lauderdale County Underplanted In 1960 — 1,671 Acres.

In 1959 Over 20,000 Farmers With Cotton Allotments Didn't Plant Any Cotton At All... This Cost Alabama \$30 Million.

These official figures portray the regrettable DECADE OF DECLINE in our cotton industry which will surely continue unless every farmer either plants his full allotment or releases it so that it will be planted in 1961 by his neighbors. If you don't plant or release your allotment some farmer in California or other state where they produce 2 bales per acre will eventually get it.

THE FARMERS WHO WANT MORE COTTON ACREAGE MUST MAKE WRITTEN APPLICATION TO THEIR COUNTY ASC OFFICE SHOWING THE NUMBER OF ADDITIONAL ACRES REQUESTED. THIS MUST BE DONE BY MARCH 15, 1961.

Cotton has long been a mainstay in Alabama's agricultural economy... it still provides the principle source of income for large numbers of our citizens. Thousands of our people are dependent upon cotton for their livelihood. ALABAMA HAS LOST ONE MILLION ACRES OF COTTON LAND IN REDUCED ACREAGE ALLOTMENT. When farmers fail to plant full allotment... they will have similar allotments in future years.

PLANT OR RELEASE IN 1961... OR LOSE IN 1962!
